

Window Tinting / Sunscreening

(Continued)

- Must have both left and right side-view mirrors if window tinting is applied, allowing a 200' view to the rear.

RCW 46.37.430 & WAC 204-10-024

- The maximum level of sunscreening material to be applied to any window, except the windshield, shall have a total reflectance of 35% or less, and a light transmittance of 35% or more resulting in a minimum of 24% light transmission on AS-2 glazing.

Exemption – Doctor's orders.

RCW 46.37.430

After-Market Lighting Devices

Covers – No additional lamp, reflective device, or other motor vehicle equipment shall be added which impairs the effectiveness of the lamp standard.

See individual lamp RCW/WAC

Maximum Number – A maximum of four of the below listed lamps may be on at one time.

WAC 204-21 & RCW 46.37.270

Neon Lights – After market neon lighting devices may not be used on motor vehicles while they are in motion on public roads.

WAC 204-21-230

Flashing Lights – Flashing lights are prohibited on any vehicle except emergency vehicles authorized under statute.

WAC 204-21-230

Signs / Message boards – May not be lighted, or electronically powered on any motor vehicle while on the public right-of-way. **Note:** Some exemptions may apply, see the WAC for additional detail.

WAC 204-21-230

Fog Lamps – Two or less. They must be white or amber in color and mounted between 12" and 30" off the ground with the inner edge of the retaining rings no closer than 4" to the optical center of the front turn signal lamp.

RCW 46.37.180 & WAC 204-21-080

Auxiliary Passing Lamps – Two or less. Must be white to amber in color, and mounted between 24" and 42" off the ground.

RCW 46.37.180 & WAC 204-21-100

Auxiliary Driving Lamps – Two or less. Must be white in color and mounted between 16" and 42" off the ground.

RCW 46.37.180 & WAC 204-21-090

Spot Lamps

WAC 204-21-110

Note: No additional lamp shall be used in lieu of headlamps.

Projections

Steering Wheel – Continuous rim steering wheel, the outside circumference of which shall be free from holes or angles capable of catching fingers, buttons, etc., not less than 12" in diameter.

RCW 46.37.375 & WAC 204-10-034

Wheels – No vehicle may be equipped with wheel nuts, hubcaps, or wheel discs extending outside the body of the vehicle when viewed from directly above which:

- Incorporate winged projections; or
- Constitute a hazard to pedestrians and cyclists.

RCW 46.37.369

Body, Fender, and Bumpers – Shall be maintained without protrusions that could be hazardous to pedestrians.

Bumpers shall not extend past the original bumper line.

RCW 46.37.517

Safety appliances – Such as clearance lights, flexible fender extensions, mud flaps, splash and spray inhibiting devices, and others may not extend more than 3" beyond the extreme limits of the body.

RCW 46.44.010

To the Front – Load shall not extend beyond 3'

- Read for exemptions **RCW 46.44.034**

To the Rear – Load shall not extend more than 15' beyond the center of the last axle.

RCW 46.44.034

Outside load Limits – No passenger type vehicle shall be operated with any of the load extending past the fender line on the left side, nor more than 6" past the fender line on the right side of the vehicle.

RCW 46.44.060

For further information, or for a more complete list of rules and regulations governing equipment, search title 204 in the Washington Administrative Code (WAC), title 46 in the Revised Code of Washington (RCW), and the Federal Motor Vehicle Safety Standards (FMVSS). These may be accessed through the Washington State Legislative Web site; www.leg.wa.gov and www.nhtsa.com

Or call your local Washington State Patrol office listed below

3000-323-008 (R 11/08)

Rules and Regulations Governing Equipment and After-Market Equipment on Vehicles.

What is street legal?

1. All vehicles must be originally manufactured for street use and comply with all applicable state and federal standards in order to be legally driven on the roadway in Washington State. The inside of this brochure will provide you with the list of required equipment and applicable laws. **WAC 204-10-021**
2. Any aftermarket equipment on a vehicle must meet or exceed the safety requirements for the equipment originally installed on a vehicle in order to be considered legal. Such equipment should be certified as complying with any applicable federal standards by the manufacturer. In addition, no aftermarket equipment may be added to a vehicle if the equipment prohibits the required equipment from functioning properly. **WAC 204-10-021**

Vehicle Height

No part of the vehicle may be lower than the lowermost portion of the rim of any wheel in contact with the roadway. **RCW 46.61.680**

*Bumper (4.5" min. width)	Front	Rear
GVWR 7501 and up	28"	30"
GVWR 4501 – 7,500	27"	29"
GVWR 4500 and under	24"	26"
Car	22"	22"

*(Measured from ground to the bottom of the bumper)

WAC 204-10-022

Body Lift – 3" maximum spacer, with body not raised more than 4" above frame when installation is complete.

WAC 204-10-036

Other Restrictions and Requirements

Required – All vehicles, trailers, and semi-trailers must be equipped with fenders, covers, flaps, or splash aprons adequate for minimizing the spray or splash of water and mud to the rear of the vehicle. All such devices shall be as wide as the tires behind which they are mounted, and extend down to at least the center of the axle.

RCW 46.37.500

Fenders/Mud Flaps – Must cover the entire tread width, at least 15 degrees to the front, and 75 degrees to the rear. Shall extend down to at least the center of the axle.

RCW 46.37.500 & WAC 204-10-022

Exhaust – No person shall modify the exhaust system of a motor vehicle in a manner that will amplify or increase the noise emitted by the engine of such vehicle above that emitted by the muffler originally installed on the vehicle.

RCW 46.37.390 & WAC 204-10-038

License Plates –

- **Required-** Shall be mounted conspicuously at the front and rear of the vehicle horizontally, not less than one foot, nor more than four feet off the ground. **RCW 46.16.010, 46.16.240**
- **Obstructed-** It is unlawful to use any holder, frame, or materials that in any way changes, alters, or makes illegible the vehicle license plate. **RCW 46.16.240**

Suspension

- No hydraulic system shall be activated while the vehicle is being operated on public roads.
- Shall be capable of a minimum travel of + and – 2".
- There shall be no heating or welding of the coil springs, leaf springs, or torsion bars.

WAC 204-10-036

Window Tinting / Sunscreening

Sunscreening devices are products, permanent, semi-permanent, and temporary, which reduce the adverse effects of the sun. **WAC 204-10-024**

- Materials not permitted;
 - Mirror finish products
 - Red, Yellow, Gold, or Black material
 - Brushed or sprayed on material**RCW 46.37.430**
- No person shall drive any motor vehicle with any sign, poster, or other non-transparent material upon the front windshield, side wings, or side or rear windows of the vehicle that obstructs the driver's clear view of the highway or intersecting highway.

RCW 46.37.410

WAC 204-10-024

The chart below provides a list of required equipment for each type of vehicle along with references to the applicable standards. Copies of these laws may be accessed in their entirety online at www.leg.wa.gov or www.access.gpo.gov.
Note: This brochure is intended as a resource and may not include all applicable laws. To access all laws, please visit the Web sites listed above.

Vehicle Definitions:

Motor Vehicle: any vehicle that has four or more wheels in contact with the ground. These vehicles must meet the state and federal requirements for a motor vehicle.

RCW 46.04.382

Low Speed Electric Vehicle: any electric vehicle that travels on four wheels at a speed less than 35 mph may be classified as a Medium Speed Vehicle (25-35 mph) or a Neighborhood Electric Vehicle (up to 25 mph). These vehicles must meet the state and federal requirements for low speed electric vehicles.

RCW 46.04.295

RCW 46.04.357

Motorcycle: any vehicle that has two or three wheels in contact with the ground. These vehicles must meet the state and federal requirements for a motorcycle. These vehicles require a motorcycle endorsement in order to legally operate on the roadway.

RCW 46.04.330

Moped: any vehicle that travels less than 30 mph AND has an engine size of less than 50cc AND has two or three wheels in contact with the ground. These vehicles must meet the state and federal requirements for a motor-driven cycle.

RCW 46.04.304

Off-Road: vehicles not manufactured to meet the requirements are considered nonstreet licensed vehicles and may only be used for recreational purposes on nonhighway roads, trails, or a variety of other natural terrain where permission is granted by the owner of the property. Such vehicles include, but are not limited to, all-terrain vehicles, motorcycles, four-wheel drive vehicles, and dune buggies. These vehicles must be ridden in accordance with all state and local restrictions.
